Minor in Entrepreneurship

GPA: 3.8/4.0, Dean's List all semesters

Relevant Courses: Advanced Engineering Psychology, Product Design, Methods to Human Factors Engineering, Statistics, Computer Science, Computer-Aided Design

Medford MA

Expected May 2028

Professional Experience

The Shark Group

Operations and Marketing Intern

Miami, FL

September 2026–Present

- Research conferences, expos, and corporate events to identify and evaluate prospective speaking opportunities
- Maintain CRM records to support lead development, speaker engagement, and business development
- Support event and speaker operations through market research, briefing materials, and client-facing communications

Beacon Press

Digital and Social Media Intern

Boston, MA

June 2026–August 2026

- Analyzed TikTok and Google Analytics data to identify audience trends and refine content strategy, contributing to 40K+ total views and 80+ new TikTok followers
- Developed and executed digital campaigns across TikTok and Instagram, managing audience-focused messaging, content planning, and performance tracking

Axis @ The IDEA Lab

HFE Project Lead & UX Researcher

Medford, MA

January 2026-May 2026

- Led HFE team evaluating a motion-controlled guitar attachment, combining interviews, contextual observation, and REBA/RULA analysis to identify three prioritized improvements to grip, hand contact, and usability
- Synthesized qualitative findings through thematic coding and translated user needs into a product requirements document (PRD) outlining prioritized requirements, in collaboration with a cross-functional engineering team
- Presented mixed-methods usability research at 2026 Boston Human Factors and Ergonomics Society Conference

Adlink

Product Strategy Intern

Shanghai, CN

May 2025-June 2025

- Identified navigation and product-discovery pain points through heuristic evaluation and user-flow analysis, informing the information architecture and redesign of a Shopify direct-to-consumer site
- Synthesized user and competitor research across four social platforms to identify purchasing behaviors and inform product positioning and launch strategy for a luxury skincare brand

Thang Art

Growth Marketing Intern

Shanghai, CN

June 2025-August 2025

- Conducted A/B tests across video formats and messaging variations, analyzing behavioral performance data to identify engagement patterns and increase content reach to 15,000+ views per post
- Increased RedNote followers by 183% by iterating content strategy based on user behavior and platform trends

Project Experience

Pulse, FinTech Innovation Challenge

Product Manager

Medford, MA

November 2025-December 2025

- Conducted customer interviews, observational research, and competitive analysis to identify student spending behaviors, financial pain points, and unmet needs
- Analyzed financial platforms to identify a gap between retrospective spending tracking and proactive guidance
- Synthesized customer and market insights into product concepts, feature priorities, and behavioral recommendations supporting real-time financial decision-making
