Education

Tufts University, Medford MA Expected May 2028
Bachelor of Science, Double Major in Human Factors Psychology and Architectural Studies; Minor in Entrepreneurship
GPA: 3.8/4.0, Dean's List all semesters
Relevant Courses: Methods to Human Factors Engineering, Cognitive Psychology, Product Design, Statistics

Professional Experience

IDEA Lab January 2026-May 2026

UX Researcher & Product Designer, Tufts University, Medford MA

- Evaluated a motion-controlled guitar attachment, combining interviews, contextual observation, and REBA/RULA analysis to identify three prioritized improvements to grip, hand contact, and usability
- Synthesized qualitative findings through thematic coding and translated user needs into prioritized product requirements in collaboration with a cross-functional engineering team
- Presented mixed-methods usability research at 2026 Boston Human Factors and Ergonomics Society Conference

Tufts Center for Engineering Education and Outreach May 2026–Present

Communications and Social Media Support, Remote

- Independently research, interview, write, and edit 1,000-word features about educators and engineering-education programs, managing projects from open-ended assignment through publication
- Developed interview protocols and interviewed three engineering teachers, producing an approved event feature and teacher spotlight with minimal substantive revision

Adlink May 2025-June 2025

Product Strategy Intern, Shanghai, China

- Identified navigation and product-discovery pain points through heuristic evaluation and user-flow analysis, informing the information architecture and redesign of a Shopify direct-to-consumer site
- Synthesized user and competitor research across four social platforms to identify purchasing behaviors and inform launch positioning for a luxury skincare brand

Beacon Press June 2026–Present

Digital and Social Media Intern, Boston, MA

- Used TikTok and Google Analytics data to guide content iteration, producing TikTok and Instagram assets in Canva and CapCut that generated 18,000+ total views and 50+ new TikTok followers

Human Factors Cast May 2026–Present

Producer & Researcher, Remote

- Research human factors concepts and produce accessible podcast and short-form video content for general audiences
- Edit podcast audio and short-form video content in Descript, including an explainer connecting shared mental models to *Slay the Spire 2* for TikTok and YouTube Shorts

Thang Art June 2025-August 2025

Growth Intern, Shanghai, China

- Conducted A/B tests across video formats and messaging variations, analyzing behavioral performance data to identify engagement patterns and increase content reach to 15,000+ views per post
- Increased RedNote followers by 183% by iterating content strategy based on user behavior and platform trends

Project Experience

Wayable, Top 3 Finalist at Tufts Derby Entrepreneurship Center 36-Hour Production February 2026

UX Researcher & Product Lead, Medford MA

- Conducted semi-structured interviews with mobility-impaired users, identifying two critical navigation problems: fragmented information and lack of real-time updates
- Translated findings into a mid-fidelity Figma prototype prioritizing real-time routing and issue reporting

Skills

Research: User Interviews, Usability Testing, Contextual Observation, Heuristic Evaluation, Thematic Analysis

Design & Prototyping: Figma, Adobe Creative Cloud, Canva, Onshape, AutoCAD

Data & Analytics: Python, Excel, Google Analytics, ChatGPT, Codex

Languages: English and Chinese, native proficiency
